

ICT 9 Seatwork#1: Applying Bootstrap Image and Table

NAME _____ SCORE _____

Creating a Responsive Web Page with Bootstrap

Materials & Tools:

- Web Design Basics Book
- Online Source for Images and information
- Text Editor: Sublime Text

Instructions:

1. Create a webpage featuring your 5 favorite artists. Use BootStrap 5 to make the webpage responsive.
2. The key elements of your web page should include the following:
 - a. HTML Structure. Follow the syntax for basic HTML structure which includes doctype, html, head (with title), and body.
 - b. Headings tags. Create a proper heading for the page.
 - c. Paragraphs tags. Insert information of the chosen characters.
 - d. CSS Span and DIV elements. Organize web content.
 - e. CSS Texts, Colors, and Backgrounds. Set and decorate texts with CSS properties
 - f. Bootstrap Table. Apply bootstrap classes for tables
 - g. Bootstrap Images. Style images with Bootstrap classes.
 - h. Bootstrap Responsive: Layout adjusts correctly on different screen sizes. Test by resizing your screen.
 - i. Link tags. Include hyperlinks for your online sources
3. Upload your site on Github.
4. Save your file with this filename format:

Repository: Campus_ICT9Section_Q2SW1_LName_FName

HTML Filename: index.html (include css and images if used)

5. Submit your REPO and Live link through the OB Digital Platform and add the appropriate caption.
