Personal Slambook

📝 **Materials & Tools:**

w3schools.com

Text Editor: Sublime Text

Online images for media assets, layout ideas, and text information

📝 **Instructions:**

1. Open **Sublime Text** (or any text editor).
2. Create an HTML file with the title: **"Personal Slambook"**.
3. Your web page should include the following key elements:
   - ✅ **Basic HTML Structure** (doctype, `<html>`, `<head>` with `<title>`, and `<body>`)
   - ✅ **Title Tag** (`<title>Q1 Drill 1</title>`)
   - ✅ **Heading Tags** (`<h1>`, `<h2>`, etc.) for page title and section labels
   - ✅ **Paragraph Tags** to describe yourself briefly
   - ✅ **Internal CSS** to style text and elements
   - ✅ **HTML Lists**
     - Unordered List (`<ul>`)
     - Ordered List (`<ol>`)
     - Description List (`<dl>`)
     - Nested List
   - ✅ **Hyperlinks** using `<a>` to link to at least one external website
   - ✅ **Images** using `<img>` tag (can be from the web or local folder)
   - ✅ **Internal CSS** in `<style>` tag to style your lists and links
4. Save and test your HTML file in a browser.
5. Save your file with this format: `Campus_ICT9Section_Q1Drill1_LName_FName.html`
6. Submit your file and screenshot through the **OB Digital Platform** with a caption related to the activity (e.g., "My Personal Slambook Page").

SAMPLE OUTPUT:

✏️ My Slambook

A slam book is a notebook or journal passed around among friends or classmates where everyone writes personal information, answers fun questions, and shares thoughts or messages. It usually includes questions like name, birthday, favorites, dreams, and messages to the owner. Popular in schools, slam books are a fun way to learn more about each other and keep memories.

🌟 About Me

1. Name: Jane Doe
2. Nickname: JD
3. Grade/Section: 9 Topaz
4. Zodiac Sign: Leo
5. Birthday: August 6, 2010
6. Describe yourself in one word: Funny
7. Motto in life: Time is Gold

💖 Favorites

- Favorite color: Violet
- Favorite food: Adobo
- Favorite subject: ICT
- Favorite movie or TV show: One Piece
- Favorite song: Lazy Song by Bruno Mars
- Favorite sport or activity: Coding
- Favorite place to hang out: Library

SCORING RUBRICS

Criteria	Excellent (E)	Above Standard (AS)	Standard (S)	Needs Improvement (NI)	Poor (P)
Style and Design (3.5 points)	Outstanding use of **Internal CSS** with creative, cohesive visual elements; colors, fonts, and layout enhance the personal slambook theme.	Clear and consistent design using CSS; visuals are appealing and well-suited to the theme with minor inconsistencies.	Design is acceptable; basic CSS is applied, but color, font, or layout choices may seem random or lack creativity.	Limited or weak use of CSS; design is plain, mismatched, or visually distracting.	No design styling evident; CSS is missing or incorrectly applied, making the project unattractive.
Syntax (3.5 points)	HTML code is error-free, well-indented, and uses correct syntax for **lists, images, hyperlinks, and internal CSS**.	Minor syntax issues (e.g., missing tags or small typos), but the structure is generally clean and readable.	Some syntax errors present that slightly affect readability or structure.	Frequent syntax mistakes (e.g., incorrect tags, nesting issues); code is hard to follow.	Many serious syntax errors; HTML structure is broken or unreadable.

Functionality (3 points)	All elements (lists, images, hyperlinks, CSS) function exactly as intended; no broken parts.	Most elements work as expected; minor issues (e.g., one broken link or misaligned image).	Some functionality works; noticeable issues with at least two elements (e.g., broken link and image).	Most elements don't function properly; the project is partially working.	Slambook is mostly non-functional; key components are broken or missing.
